DURATION:	1 Day	
TIMES:	9.00am to 1.00pm	- Maintenance
	1.30pm to 4.30pm	- Sizing & Selection
COST:	Maintenance half day	- \$350.00 + GST
	Maintenance/Sizing & Selection all day	- \$500.00 + GST
LOCATION:	Southern Controls Training Room 50 Norcal Road NUNAWADING VIC 3131 Ph: 03 9877 6822	

WHO SHOULD ATTEND THIS COURSE

This course is intended for maintenance personnel who work on or intend to work on relief and safety relief valves, Supervisors or Engineers involved with relief valves and Engineers wishing to learn how to size and select relief valves.

COURSE CONTENT

Topics covered include the following:

- * Codes
- * Standards
- * Design Overview
- * Materials Review
- * Leak Rates
- * Installation and Handling Guidelines
- * Orifice and Spring selection
- * Disassembly, Inspection, Repair and Testing Guidelines
- * Lapping
- * Sizing
- * Selection

COURSE INCLUDES

- * Course notes
- * Lunch

SKILLS ACQUIRED DURING COURSE

At the end of the Maintenance theory and practical session, participants will:

- * Be aware of the importance of relief valves as a critical plant safety device
- * Be able to identify relief valve types and be aware of their differing applications
- * Have a sound awareness of relief valve assembly inspection and testing requirements
- * Have an awareness of the relevant standards and codes
- * Understand the unique requirements of relief valves

At the end of the Engineering session, participants will:

- * Be able to size and select relief and safety relief valves
